

**XYNGULAR™**

**CORE4**

CHEAT Plus™ Capsules combines three all-natural ingredients that have been proven safe and effective for weight loss, cleansing, blood sugar and cholesterol control. For the first time, the CHEAT's original konnyaku micro-coated fiber is in now in an easy to swallow capsule. The konnyaku fiber is not only beneficial for weight loss and weight control, it also is beneficial in the slowing of cholesterol and blood sugar absorption. Now, we have combined two ingredients that compliment the powerful konnyaku fiber... Green Coffee Bean and Phytosterols.

Green Coffee Bean contains a natural constituent called chlorogenic acid, which neutralizes free radicals. Chlorogenic acid also helps regulate and boost metabolism by regulating glucose in the body. Green Coffee Bean Extract has no reported adverse side effects.

Phytosterols act as a control in your body to regulate cholesterol levels. The most well-known, and scientifically proven benefit of phytosterols is their ability to help lower cholesterol. These plant compounds are non-soluble. Once the body has routinely recognized the compounds as "cholesterol" the cholesterol lowering benefits may occur. Cholesterol is not the only benefit associated with the regular consumption of phytosterols. Additional benefits include prostate health and improving the appearance of skin.

# CHEAT+

reduce calories

CHEAT Plus is not just for weight management. CHEAT Plus was developed for adults of all ages for weight loss, weight maintenance, and to help maintain healthy blood sugar and cholesterol control. The recommended dose is 1-2 capsules 30 minutes prior to meals up to 3 times daily. CHEAT Plus capsules can be used in conjunction with the original CHEAT food sprinkle. Each serving should include at least 8oz of clean water.
